## ALABAMA PUBLIC SCHOOLS, 2013-14

Local School Systems ..... 138

Public Schools (TOTAL) ..... 1,491

### BREAKDOWN

Elementary ..... 1,083

Middle ..... 541

Junior High ..... 223

Senior High ..... 510

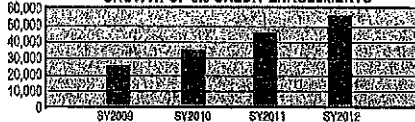

Career/Technical Centers ..... 82

NOTE: A school with multiple grade levels may be represented in more than one category. For example, a school with Grades K-12 contains elementary, junior high, and high school levels and would be counted in each school category. Therefore, the breakdown totals of school categories are greater than the total number of public schools within Alabama.

## ACCESS DISTANCE LEARNING

**ACCESS** The Alabama Connecting Classrooms, Educators, and Students Statewide Distance Learning Initiative provides Alabama public school students in Grades 6-12 "equal access to high-quality instruction to improve student achievement."

### GROWTH OF 0.5 CREDIT ENROLLMENTS

As enrollments continue to grow so does the number of active teachers, schools involved, and courses taken.

These numbers represent a growth from just over 11,000 unique students in 2009-2010 to 27,712 unique students as of January 2014.

Alabama Education Report Card

# 2012-2013

A Year in Review

ALABAMA STATE DEPARTMENT OF EDUCATION

## From The State Superintendent

Beginning in January of 2012, the Alabama State Board of Education embarked on a bold and transformation plan for K-12 public education in our state known as PLAN 2020. Foundational to this plan was a new definition of a successful and prepared high school graduate informed by community colleges, institutions of higher education and business and industry rather than the misaligned concept of Adequate Yearly Progress as defined under No Child Left Behind.

Over the past two years new standards have been adopted to create a trajectory toward college and career readiness for ALL students. New and meaningful assessments have replaced the laborious assessments of the last decade. And a policy environment that promotes and rewards innovation and creativity has replaced one of compliance and uniformity and as a result Alabama now has its highest recorded Graduation Rate, 80% all a result of unleashing the creativity at the local school and school system level.

This report card includes a plethora of data and financial information we hope you will find helpful in gaining a holistic picture of the world of K-12 education in our state and the vast need that remains to insure every child becomes a graduate and every graduate is prepared for college, work and adulthood in the 21st century.

## Introduction

### **Public education in Alabama is everyone's business.**

From business and industry to social and civic organizations, what is happening in Alabama's classrooms should be of concern to every citizen of our great state. In this, the 2012-13 Alabama Education Report Card, a wealth of detailed information concerning our schools is made available to the public. I encourage anyone interested in the state of education to peruse this report for important data on graduation rates, testing and assessment, personnel and classroom information, funding allocations, and much, much more.

With the unwavering support of the Alabama State Board of Education and countless educators and administrators across the state, Alabama is primed to take advantage of a host of innovative strategies as well as practical approaches to improving education. Schools and school systems are identifying specific needs for their schools and using inventive methods to address them. Rigorous standards are being implemented statewide and teachers are excited about creating curriculums to support the standards.

In the past year, Alabama has experienced record-breaking graduation rates that exceeded all expectations. We have adopted a full suite of ACT Assessments that will allow teachers to use data to better inform instruction and prepare students for college and career readiness. The state's overall plan for education reform – PLAN 2020 – has set objectives, strategies, and measures of success for teachers and administrators, students, schools and school systems, as well as surrounding support systems that help students chart their path for life.

The vision of the Alabama State Board of Education and State Department of Education remains: Every child a graduate – Every graduate prepared for college, work, and adulthood in the 21st century. As we move toward that vision, the contents of the Alabama Education Report Card keeps the public aware of our progress along with a host of other detailed information. From formal research to general knowledge about public education, we hope the content of this report is useful and assists in painting a realistic and transparent picture of the status of public education in Alabama.

Information in this 2012-2013 Alabama's Education Report Card meets the requirements of the Code of Alabama (1975), Section 16-3-21, and the No Child Left Behind Act of 2001, Public Law 107-110.

# AHSGE - Alabama High School Graduation Exam

Students must pass the *Alabama High School Graduation Exam (AHSGE)* to earn a high school diploma. The chart shows the percent of 11th and 12th graders who passed each subject-area test of the exam. The percent passing reflects Levels III and IV (meeting or exceeding academic achievement standards). To view additional years of student achievement information, go to [www.alsde.edu/Accountability/Accountability.asp](http://www.alsde.edu/Accountability/Accountability.asp). Student achievement is disaggregated and displayed by school year, assessment, grade, and subject.

## ARMT - Alabama Reading and Mathematics Test

The *Alabama Reading and Mathematics Test+ (ARMT+)* provides an assessment of students' mastery of the content standards contained in the Alabama courses of study for reading and mathematics. The ARMT+ is administered in Grades 3-8.

To view additional years of student achievement information, go to: [www.alsde.edu/Accountability/Accountability.asp](http://www.alsde.edu/Accountability/Accountability.asp).  
 Student achievement is disaggregated and displayed by school year, assessment, grade, and subject.

# Alabama Science Assessment

Alabama students in Grades 5 and 7 take a science assessment each year to measure their mastery of content standards contained in the Alabama Course of Study: Science.

# Alabama Alternate Assessment

The Alabama Alternate Assessment (AAA) is designed for special education students in Grades 3-8 and 11 whose Individualized Education Program (IEP) teams determine that the students will not participate in the regular student testing program. The AAA measures a student's mastery of academic goals based on the Alabama Extended Standards.

# National Assessment of Educational Progress (NAEP) Report

Also known as the nation's Report Card, the National Assessment of Educational Progress (NAEP) is the largest nationally representative and continuous assessment of what America's students know and can do. There are differences in NAEP and Alabama's assessments. NAEP is not aligned to any particular content standards, whereas Alabama's assessments are all aligned with the Alabama courses of study. Proficient as defined for NAEP is "competency over challenging subject matter," whereas proficient (Levels III and IV) for Alabama's assessments is defined as "at grade level." All Alabama students participate in Alabama's assessments every year at each subject and grade level, but only a small representative sample of Alabama students participate in NAEP reading and mathematics, which is administered every other year.
